N3UPY CONTACTS K4H WORLD FAMOUS RADIO HAM!

Interview

Shawn Neupauer
153 Hillcrest Road
Weirton, WV 26062
made this historical contact
on today's date.
When asked about a QSL
card he said he did did
not have that station's
QSL.

n3upy.sn@gmail.com

Headline Story

In order to verify this historical event we contacted the local FCC
monitoring station. The FCC engineer on duty at that facility
confirmed that the QSO between these licensed Amateurs took
place on 8/17/21 at 15:11 UTC on a frequency of
14.074 Mhz. Both stations were using the FT8 mode of
transmission. FCC records show a signal report exchange of
sent 8 and received of 7. When ask for comments
regarding this QSO, he smiled, looked at his notes and replied "
That's a good one, put it in the log!" 73.

Editor's Column

It has been reported that
the current solar cycle is on
the upswing. In our
interview with several
operators in the ham radio
community we have found
those statements to be
unpropagated and full of
static.
